

Science communication workshops for academics

Scientists are expected to explain their research broadly and share their knowledge with society.

Our workshops provide you with all the tools you need to control your communication, whatever the audience and the format.

MEDIA TRAINING

Be in control when interacting with journalists

INCLUSIVE LANGUAGE

Express yourself in a neutral way naturally

WRITING WORKSHOP

Write to be read

PREPARING FOR SCIENCE ADVICE

Ensure the impact of the advice you give as an expert

SOCIAL MEDIA COURSE

Use social networks efficiently

Formats

Online or in person

Number of participants: 4 - 10

Language: English and French

Audience: from PhD to professors

Duration: from half a day to two days

► Every workshop can be tailored to specific goals.

Preparation

Participants are expected to send in advance a short summary of their research.

Some workshops include exercises made outside of the course with individual feedback.
